

6-Piece Cat

- 1. Cut pieces** (1 of each except the hind legs; you need 2 of those). Use these pieces as patterns and cut from your own cool paper or cardboard, or print as is, and glue them to cardboard
- 2. Cut slits** (wide slits if your cardboard or foam board is thick. A snug fit is good).
- 3. Fit together** (add some glue if it's loose. If you're using plain cardboard, now's the time to paint or add your own decorations).
